EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edward Goodman on 11/21/07.

2. The application has been amended as follows:

Claim 6 (the original claim 8 has been renumbered as claim 6) has been replaced with the following: --

6. A computer readable medium [data carrier] storing a computer program for execution by a processor, the computer program causing the processor to generate an output audio signal by adding output components in a predetermined first frequency range to an input signal, and to generate the output components by performing a predetermined calculation on first input components in a predetermined second frequency range, characterized in that the computer program causes the processor to set a first output energy measure, over a predetermined first time interval, of the generated output components, based upon a first input energy measure calculated over a predetermined second time interval of second input components, in a predetermined third frequency range of the input audio signal, wherein the predetermined third frequency range is different from the predetermined second frequency range, and is selected from a

predetermined number of frequency ranges, as the frequency range which is closest to the first frequency range according to a predetermined frequency range distance formula.—

3. The amendment is necessary because a data carrier, as specified in the specification, is not limited to a computer readable medium. By amended the claim, it is clear that the claim is limited to a computer readable medium

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ping Lee whose telephone number is 571-272-7522. The examiner can normally be reached on Monday, Wednesday and Friday.
